

HazTech Systems, Inc. SAFETY DATA SHEET

Revision number: 2 **Revision date:** 12/08/2015

1. IDENTIFICATION

Product name: Product code: Synonyms: CAS: RTECS # CI#: Recommended use: Uses advised against:

Company:

HazTech Systems, Inc. 4996 Gold Leaf Drive Mariposa, CA 95338 U.S.A. Telephone: 1-800-543-5487 / 1-209-966-8088 Fax: 1-209-966-8089 e-mail: sales@hazcat.com www.hazcat.com

Xylene

RE2326/RE2099/RE2067 Benzenes, dimethyl- Dimethylbenzenes, Methyl toluene, Violet 3, Xylol 1330-20-7 ZE2100000 Not available Laboratory chemicals, Synthesis of substances No information available

> Chemical Emergencies: HazTech Systems, Inc. (8:00am - 5:00pm) PST 1-800-543-5487 Transportation Emergencies: Chemtrec 24-Hour 1-800-424-9300 (U.S.A.) 1-703-527-3887 (International)

2. HAZARD(S) IDENTIFICATION

Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Acute toxicity - Dermal	Category 4
Acute toxicity - Inhal ation (Gases)	Category 4
Acute toxicity - Inhalation (Dusts/Mists)	Category 4
S kin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2
Reproductive toxicity	Category 2
Specific target organ toxicity (single exposure)	Category 3
Aspiration toxicity	Category 1
Flammable liquids	Category 3

Label elements

Signal word

Pictograms

Hazard statements Harmful in contact with skin Harmful if inhaled Causes skin irritation Causes serious eye irritation Suspected of damaging fertility or the unborn child May cause respiratory irritation. May cause drowsiness or dizziness May be fatal if swallowed and enters airways Flammable liquid and vapor Hazards not otherwise classified (HNOC)

Not Applicable

Other hazards May be harmful if swallowed Toxic to aquatic life with long lasting effects Toxic to aquatic life

Warning

2. HAZARDS IDENTIFICATION

Precautionary Statements - Prevention Obtain special instructions before use

Do not handle until all safety precautions have been read and understood

Use personal protective equipment as required

Avoid breathing dust/fume/gas/mist/vapors/spray

Use only outdoors or in a well-ventilated area

Wash face, hands and any exposed skin thoroughly after handling Wear eye/face protection

Keep away from heat/sparks/open flames/hot surfaces. — No smoking

Keep container tightly closed

Ground/bond container and receiving equipment

Use explosion-proof electrical/ventilating/lighting/ .? /equipment

Use only non-sparking tools

Take precautionary measures against static discharge

Keep cool

Precautionary Statements - Response

IF exposed or concerned: Ge t medical advice/attention

Specific measures (see .? on this label)

Specific treatment (see .? on this label)

In case of fire: Use CO2, dry chemical, or foam to extinguish.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower

Wash contaminated cl othing before reuse

If skin irritation occurs: Get medical advice/attention

Call a POISON CENTER or doctor/physician if you feel unwell

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician

Do NOT induce vomiting

Precautionary Statements - Storage

Store locked up

Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS-No.	Weight %	Trade Secret
Xylenes	1330-20-7	75-87	*
1330-20-7			
Ethylbenzene	100-41-4	13-25	*
100-41-4			

4. FIRST AID MEASURES

General Advice:	Poison information centres in each State capital city can provide additional
	assistance for scheduled poisons (13 1126).
Skin Contact:	Wash off immediately with soap and plenty of water removing all contaminated clothes and
	shoes. Get medical attention. If skin irritation persists, call a physician.
Eye Contact:	Flush eye with water for 15 minutes. Get medical attention.
Inhalation:	Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.
	Get medical attention.
Ingestion:	Do not induce vomiting without medical advice. Never give anything by mouth to an
	unconscious person. Obtain medical attention.
Most important symptoms and effect	
Symptoms	Causes eye irritation. Causes skin irritation. Irritating to respiratory system. Coughing. Dyspnea
	(Shortness of breath and difficulty breathing). May cause cyanos is. Central nervous system
	effects. Dizziness. Fatigue. Weakness. Narcos is. Seizures. Convulsions. Aspiration hazard if
	swallowed - can enter the lungs and cause damage. Aspiration into the lungs may cause
	chemical pneumonitis. Aspiration into the lungs may cause pulmonary edema. May cause
	nausea and vomiting. May affect eyes/vision. May cause metabolic acidosis.
Indication of any immediate medical	l attention and special treatment needed
Notes to Physician:	Treat symptomatically
Protection of first-aiders	
First-Aid Providers: Avoid exposure to	blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of

First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipm ent as bio-hazardous waste

5. FIREFIGHTING MEASURES	
Extinguishing Media Suitable Extinguishing Media:	Carbon dioxide (CO2). Dry chemical. Water spray mist or foam.
Unsuitable Extinguishing Media:	Do not use a solid (straight) water stream as it may scatter and spread fire.
Specific hazards arising from the chemical	1
Hazardous Combustion Products:	Carbon monoxide; Carbon dioxide
Specific hazards:	Flammable. May be ignited by heat, sparks or flames. Container explosion may occur under fire conditions or when heated. Vapor may travel considerable distance to source of ignition and flash back. Vapors may form explosive mixtures with air. Most vapors are heavier than air. They will spread along the ground and collect in low or confined areas (sewers, basements, tanks). Fire may produce irritating, corrosive and/or toxic gases.
Special Protective Actions for Firefighters	0
Specific Methods:	Water mist may be used to cool closed containers. For larger fires, use water spray or fog. Cool containers with flooding quantities of water until well after fire is out.
Special Protective Equipment for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

6. ACCIDENTAL RELEASE ME	ASURES
Personal Precautions:	Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid contact with skin, eyes and clothing. Use personal protective equipment. Remove all sources of ignition. Pay attention to flashback. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use spark-proof tools and explosion-proof equipment. In case of large spill, water spray or vapor suppressing foam may be used to reduce vapors, but may not prevent ignition in closed spaces.
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, basements or confined areas. In case of large spill, dike if needed. Dike far ahead of liquid spill for later disposal.
Methods for containment	Stop leak if you can do it without risk. Absorb spill with inert material (e.g. vermiculite, dry sand or earth).
Methods for cleaning up	Use appropriate tools to put the spilled material in a suitable chemical waste disposal container. Use only non-sparking tools. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions:

Provide sufficient air exchange and/or exhaust in work rooms. Remove all sources of ignition. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Keep away from incompatible materials.

Safe Handling Advice:

Wear personal protective equipment. Use only in well-ventilated areas. Avoid contact with skin, eyes and clothing. Do not breathe vapors or spray mist. Do not ingest. Keep away from heat and sources of ignition. Take precautionary measures against static discharges. When using do not smoke. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions:

Keep container tightly closed in a dry and well-ventilated place. Store at room temperature in the original container. Protect from moisture. Keep away from heat and sources of ignition. Store in a segrated and approved area. Store away from incompatible materials.

Incompatible Materials:

Oxidizing agents. Acids. Bases.

Xylene

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

National occupational exposure limits

United States

Components	OSHA	NIOSH	ACGIH	AIHA WHEEL

	434 mg/m ⁻³ TWA	545 mg/m ³ STEL

Appropriate engineering controls

Engineering measures to reduce exposure:

Ensure adequate ventilation. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below their respective threshold limit value.

Individual protection measures, such as personal protective equipment Personal Protective Equipment

Eye protection:	Goggles. Safety glasses with side-shields.
Skin and body protection:	Chemical resistant apron. Long sleeved clothing. Gloves.
Respiratory protection:	Vapor respirator. Be sure to use an approved/certified respirator or equivalent.
Hygiene measures:	Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands before breaks and immediately after handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Appearance:	Color:
Liquid.	Clear liquid	Clear. Colorless.
Odor:	Taste	Formula:
Sweet. Aromatic.	No information available	C8-H10 or C6-H4(CH3)2
Molecular/Formula weight:	Flash point (°C):	Flashpoint (°C/°F):
106.17	29.44	29.44 °C/85 °F
Flash Point Tested according to:	Lower Explosion Limit (%):	Upper Explosion Limit (%):
Closed cup	1%	7%
Autoignition Temperature (°C/°F):	pH:	Melting point/range(°C/°F):
460-464 °C/860-867.2 °F	No information available	-34 °C/-29 °F
Boiling point/range(°C/°F):	Decomposition temperature(°C/°F):	Specific gravity:
136-141°C/276.8-285.8 °F	No information available	8.6 @ 20 °C
Density (g/cm3):	Bulk density:	Vapor pressure @ 20°C (kPa):
0.84 @ 25 °C	No information available	0.88-0.89
0.87 @ 25 °C		

9. PHYSICAL AND CHEMICAL PRO	PERTIES	· · · -		
Evaporation rate:	Vapor density:	VOC content (g/L):		
No information available	3.7	840-860		
Odor threshold (ppm):	Partition coefficient	Viscosity:		
0.7-40	(n-octanol/water):	No information available		
Miscibility:	3.12-3.2			
Miscible with Ether	Solubility: Very slightly soluble in water			
Miscible with alcohol	very slightly soluble in water			
Miscible with many organic solvents 10. STABILITY AND REACTIVITY				
10. STABILITY AND REACTIVITY Reactivity				
Reactive with oxidizing agents				
Reactive with acids				
Reacts with bases				
Chemical stability	Stable at normal conditions			
Stability: Possibility of Hazardous Reactions:	Hazardous polymerization does not occur	*

Symptoms	
Skin Contact:	Irritating to skin. Moderately irritating to the skin. It may be absorbed through the skin. If absorbed through skin it may cause systemic effects.
Eye Contact:	Causes eye irritation. Moderately irritating to the eyes. Causes conjunctivitis. May
Lyc Contact.	cause transient corneal injury. It may cause transient photophobia and disturbances
	of vision.
Inhalation	Exposure to vapor or mist causes eye irritation. Irritating to respiratory system. May
	cause dyspnea (difficulty breathing or shortness of breath). May cause respiratory
	arrest. Symptoms may include chest tightness, coughing. May cause chemical
	pneumonitis. May cause cyanosis. Inhalation of high concentrations of vapors may
	cause dizziness or suffocation. Inhalation of high concentrations of vapor may cause
	anesthetic effects. May cause vasodilation of the peripheral vessels with facial
	flushing/redness. May produce a sensation of bodily warmth. May affect the
	cardiovascular system (cardiac arrhythmias). May cause sweet tast in mouth. May cause salivation. May cause dehydration. May cause dry mouth, thirst. May cause
	dry and sore throat. May cause nausea, vomiting. May cause anorexia. It may affect
	the liver. May affect the kidneys. May cause metabolic acidosis. May cause
	hypokalemia, hypobicarbonatemia, and hypophosphatemia. May affect
	behavior/central nervous system (excitement). May affect behavior/central nervous
	system (CNS depression, fatigue, irritability, memory loss, seizures, tremor,
	incoordination, coma). May affect behavior/central nervous system (headache,
	apprehension, vertigo, confusion drowiness, lassitude, lightheadness. May affect
	behavior/central nervous system (slurred speech, difficulty in concentrating). May
	affect behavior/central nervous system (loss of conciousness, coma). May affect
_	vision (blurred vision).
Ingestion	Causes digestive (gastrointestinal) tract irritation. Irritating to mouth, throat and
	stomach. May cause a burning sensation in the mouth, chest, and stomach. Causes
	gastrointestinal distress. Ingestion may cause nausea, vomiting, diarrhea. Aspiration
	hazard if swallowed. Aspiration may lead to pulmonary edema. Aspiration into the lungs can cause chemical pneumonitis. May affect the peripheral nervous system
	(flaccid paralysis without anesthesia (usually neuromuscular blockage)). May affect
	urinary system (kidneys). May affect liver. May cause metabolic acidosis. It may
	cause central nervous system depression.
Aspiration hazard	Aspiration hazard. May be fatal if swallowed and enters airways.
-	ts as well as chronic effects from short and long-term exposure
Chronic Toxicity	Prolonged skin contact may cause skin irritation Prolonged or repeated skin contact
	may cause dermatitis and defatting, dryness, and cracking of the skin. Prolonged or
	repeated ingestion may cause loss of appetite. Prolonged or repeated ingestion may
	cause weight loss. Prolonged or repeated inhalation may cause bronchitis with
	coughing, phlegm, and/or shortness of breath. Prolonged or repeated inhalation may
	cause nausea. Chronic exposure may cause dry and sore throat. Prolonged or
	repeated ingestion may affect the liver, and kidneys. Prolonged or repeated ingestion may affect the adrenal gland. Prolonged or repeated ingestion may affect the blood
	(changes in serum composition). Prolonged or repeated infastion may affect the
	liver. Prolonged or repeated inhalation may affect the kidneys. Prolonged or repeated
	inhalation may affect the brain. Prolonged or repeated inhalation may cause loss of
	appetite. Prolonged or repeated inhalation may affect metabolism (weight loss).

13. DISPOSAL CONSIDERATIONS

Disposal Methods

Waste from residues / unused products:

Waste must be disposed of in accordance

with Federal, State and Local regulation.

Contaminated packaging: Empty containers should be taken for local

recycling, recovery or waste disposal

Components	RCRA - F Series Wastes	RCRA - K Series Wastes	RCRA - P Series Wastes	RCRA - U Series Wastes
Xylenes	None	None	None	U239 Ignitable waste
Ethylbenzene	None	None	None	None

WHMIS hazard class: B2 Flammable liquid D2A Very toxic materials D2B Toxic materials Xylenes

B2 D2A D2B

Ethylbenzene

B2 D2A D2B

Canada Controlled Products Regulation:

This product has been classified according to the hazard criteria of the CPR (Controlled Products Regulation) and the MSDS contains all of the information required by the CPR.

Components	WHMIS Ingredient Disclosure List -	WHMIS Ingredient Disclosure List -		
Ethylbenzene	0.1 %			
Inventory				
Components	Canada (DSL)	Canada (NDSL)		
Xylenes	Present	Not Listed		
Ethylbenzene	Present	Not Listed		
Components	CEPA Schedule I - Toxic Substances	CEPA - 2010 Greenhouse Gases Subject to Manditory		
Xylenes	Not listed	Reporting Not listed		
Ethylbenzene	Not listed	Not listed		

EU Classification

R-phrase(s)

R10 - Flammable.

R38 - Irritating to skin.

R20/21 - Harmful by inhalation and in contact with skin.

S -phrase(s)

S 2 - Keep out of the reach of children.

S25 - Avoid contact with eyes.

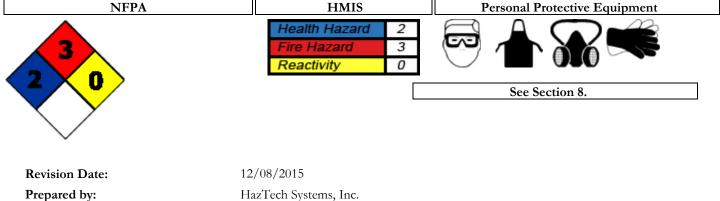

Components	Classification	Concentration Limits:	Safety Phrases
Xylenes	R10	12.5%<=C: Xn; R20/21	S2 S25
	Xn; R20/21		
	Xi; R38		
Ethylbenzene	F; R11	No information	S2 S16 S24/25 S29
	Xn; R20		

The product is classified in accordance with Annex VI to Directive 67/548/EEC

Indication of danger:
Flammable
Xn - Harmful.
Xi - Irritant.
