| Potential Acute Health Effects | Hazardous in case of skin contact (irritant), of eye contact (irritant), of ingestion, of inhalation. Slightly hazardous in case of skin contact (permeator). Severe over-exposure can result in death. |
|-------------------------------------|---|
| Potential Chronic Health Effects | CARCINOGENIC EFFECTS: Classified 4 (No evidence.) by NTP, None. by OSHA. MUTAGENIC EFFECTS: Not available. TERATOGENIC EFFECTS: Classified POSSIBLE for human. DEVELOPMENTAL TOXICITY: Classified Reproductive system/toxin/female, Development toxin [POSSIBLE]. The substance is toxic to the nervous system, gastrointestinal tract, eyes. The substance may be toxic to blood, kidneys, lungs, the reproductive system, liver, heart, brain, cardiovascular system, skin, central nervous system (CNS), pancreas. Repeated or prolonged exposure to the substance can produce target organs damage. Repeated exposure to a highly toxic material may produce general deterioration of health by an accumulation in one or many human organs. |

| Nickel Test | Page 2 of 4 |
|------------------|---|
| Section 4. First | Aid Measures |
| Eye Contact | Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Cold water may be used. Get medical attention. |
| Skin Contact | In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately. |
| Inhalation | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately. |
| Ingestion | If swallowed, do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately. |

| Section 5. Fire and Explosion Data | | | | |
|---|---|--|--|--|
| Flammability | Flammable. | | | |
| Auto-Ignition Temperature | 464°C (867.2°F) | | | |
| Flash Point | CLOSED CUP: 12°C (53.6°F). OPEN CUP: 16°C (60.8°F). | | | |
| Flammable Limits | LOWER: 6% UPPER: 36.5% | | | |
| Products of Combustion | These products are carbon oxides (CO, CO2). | | | |
| Fire Hazards in Presence of Various Substances | Highly flammable in presence of open flames and sparks, of heat, of combustible materials. | | | |
| Explosion Hazards in Presence of Various Substances | Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available. | | | |
| Fire Fighting Media and Instructions | Flammable liquid, soluble or dispersed in water. SMALL FIRE: Use DRY chemical powder. | | | |
| Special Remarks on Fire Hazards | CAUTION: MAY BURN WITH NEAR INVISIBLE FLAME. Explosive when mixed with Chloroform + sodium methoxide and diethyl zinc. It boils violently and explodes. | | | |

Section 6. Accidental Release Measures

Small Spill Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal container.

| Section 7. Handling and Storage | | | | |
|---|------------|--------------------------------|--|--|
| Precautions Keep away from sources of accidental ignition. Do not ingest. Do not breathe gas/fumes/ vapor/spray. If ingested, see medical advice immediately and show the container or the label. Avoid contact with skin and eyes. | | | | |
| Storage | Keep in Ha | Keep in HazCat Kit. | | |
| Section 8. Exposure Controls/Personal Protection | | | | |
| Engineering C | ontrols | Use in a well ventilated area. | | |
| Personal Protection | | Gloves and goggles. | | |

| pH (1% Solution in Water) | Not available | Water/Oil Dist. Coeff. | Not available. | | | |
| Boiling Point | 64.5°C (148.1°F) (methanol) | Ionicity (in Water) | Non-ionic. | | | |
| Melting Point | -97.8°C (-144°F) (methanol) | Dispersion Properties | See solubility in water, methanol. | | | |
| Critical Temperature | Not available | Solubility | Easily soluble in water, methanol | | | |
| Specific Gravity | 0.796 (Water = 1) (methanol) | Odor | Alcohol like. | | | |
| Vapor Pressure | 13.3 kPa (@ 20°C) (methanol) | Taste | Not available. | | | |
| Vapor Density | 1.11 (Air = 1) (methanol) | Color | Colorless. | | | |
| Section 10. Stability and | d Reactivity Data | | | | | |
| Stability | Product is stable. | Corrosivity | | Non-corrosive in | | |
| Instability Temperature | Not available. Special Remarks No | | presence of glass. Not available. | | | |
| Conditions of Instability | Not available. | | | 117-11 / 1 · | | |
| Incompatibility with Various Substances Special Remarks on Reactivity | Polymerization Will not polymerize. Highly reactive with oxidizing agents. Reactive with metals. Violent reaction with alkyl aluminum salts, acetyl bromide, chloroform + sodium methoxide, chromic anhydride, cyanuirc chlorite, lead perchlorate, phosphorous trioxide, nitric acid. Exothermic reaction with sodium hydroxide + chloroform. Incompatible with beryllium dihydride, metals (potassium and magnesium), oxidants (barium perchlorate, bromine, sodium hypochlorite, chlorine, hydrogen peroxide), potassium tert-butoxide, carbon tetrachloride, metals (aluminum, magnesium, zinc), and dichlormethane. May attack some plastics, rubber, and coatings. | | | | | |
| Section 11. Toxicological | Information | | | | | |
| Route of Entry Toxicity to Animals | Absorbed through skin. Eye contact. Inhalation. Ingestion. Acute oral toxicity (LD50): 5628 mg/kg (Rat.) (methanol) . Acute dermal toxicity (LD50): 15800 mg/kg (Rabbit.) (methanol). Acute toxicity of the vapor (LC50): 64000 4 hours (Rat.) (methanol). Very hazardous in case of ingestion, of inhalation. Slightly hazardous in case of skin contact (irritant). | | | | | |

All chemicals may pose unknown hazards and should be used with caution. This Material Safety Data Sheet (MSDS) applies only to the material as packaged. If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this MSDS. It shall be the user's responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this MSDS is based on technical data judged to be reliable, HazTech Systems, Inc. assumes no responsibility for the completeness or accuracy of the information contained herein.
