Section 1. Chemical Product and Company Identification

Page 1 of 4

Trade Name Acid Test

Parr # RE2076

Manufacturer Haztech Systems, Inc.

CAS # Mixture

PO Box 929

RTECS MW4025000

Mariposa, CA 95338

TSCA TSCA8(b) inventory:

Hydrochloric acid

Commercial Name hydrochloric acid

CI#

Evnoguro Limito

Synonym muriatic acid

In case of emergency contact CHEMTREC

(24 hours) at 800-424-9300

HazTech Systems, Inc. 800-543-5487

Chemical Formula HCl

Spectrum Chemical Mfg. Corp. 310-516-8000

Supplier Spectrum Chemical Mfg. Corp.

14422 S. San Pedro St. Gardena. CA 90248

Section 2. Composition and Information on Ingredients

	Exposure Linius					
Name	CAS #	TWA (mg/m3)	STEL	CEIL (mg/m3)	% by Weight	
Hydrogen chloride Water	7647-01-0 7732-18-5	7.5		5	~6% ~94%	

Toxicological Data on Hydrogen chloride: VAPOR (LC50): Acute: 1562 ppm 4 hours (Rat).

Ingredients

Section 3. Hazards Identification

Potential Acute Health Effects Extremely hazardous in case of ingestion, of inhalation. Very hazardous in case of skin contact (corrosive, irritant, permeator), of eye contact (irritant). Liquid or spray mist may produce tissue damage particularly on mucous membranes of eyes, mouth and respiratory tract. Skin contact may produce burns. Inhalation of the spray mist may produce severe irritation of respiratory tract, characterized by coughing, choking, or shortness of breath.

Potential Chronic Health Effects CARCINOGENIC EFFECTS: Not available. MUTAGENIC EFFECTS: Not available. TERATOGENIC EFFECTS: Not available. DEVELOPMENTAL TOXICITY: Not available.

The substance is toxic to lungs, mucous membranes.

Repeated or prolonged exposure to the substance can produce target organs damage. Repeated or prolonged contact with spray mist may produce chronic eye irritation and severe skin irritation. Repeated or prolonged exposure to spray mist may produce respiratory tract irritation leading to frequent attacks of bronchial infection.

Acid Test Page 2 of 4

Section 4. First Aid Measures

Eye Contact Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes,

keeping eyelids open. Cold water may be used. Do not use an eye ointment. Seek medical attention.

Skin Contact If the chemical got onto the clothed portion of the body, remove the contaminated clothes as quickly as possible,

protecting your own hands and body. If the chemical got on the victim's exposed skin, such as the hands: Gently and thoroughly wash the contaminated skin with running water and non-abrasive soap. Be particularly careful to

clean folds, crevices, and creases. Cold water may be used. If irritation persists, seek medical attention.

Inhalation Allow the victim to rest in a well ventilated area. Seek immediate medical attention.

Ingestion Do not induce vomiting. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible

indication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth

resuscitation. Seek immediate medical attention.

Section 5. Fire and Explosion Data

Flammability Non-flammable

Auto-Ignition Temperature Not available.

Flash Point Not available.

Flammable Limits Not available

Products of Combustion These products are carbon oxides (CO, CO2), nitrogen oxides (NO, NO2 etc.).

Fire Hazards in Presence of Various Substances

Not available.

Explosion Hazards in Presence

of Various Substances

Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

Fire Fighting Media and Instructions

Non-combustible

Section 6. Accidental Release Measures

Small Spill Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal

container. If necessary: Neutralize the residue with a dilute solution of sodium carbonate.

Section 7. Handling and Storage

Precautions Keep container dry. Do not ingest. Do not breathe fumes/vapor/spray. Never add water to this product In

case of insufficient ventilation, wear suitable respiratory equipment If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes Keep away from incompatibles such as

metals, alkalis. May corrode metallic surfaces.

Storage Keep in HazCat Kit.

Section 8. Exposure Controls/Personal Protection

Personal Protection Gloves and goggles.

Acid Test Page 3 of 4

Section 9. Physical and Chemical Properties								
Physical State and Appearance	Clear liquid		Volatility	Not available				
Molecular Weight	Not available		Odor Threshold	Not available				
pH (1% Solution in Water)	1		Water/Oil Dist. Coeff.	Not available				
Boiling Point	Lowest known is 100 C		Ionicity (in Water)	Not available				
Melting Point	Not available		Dispersion Properties	Not available				
Critical Temperature	Not available		Solubility	Soluble in water, methanol.				
Specific Gravity	1.19 (Water = 1)		Odor	Pungent.				
Vapor Pressure	Highest known 17.535 mm of Hg		Taste	Not available				
Vapor Density	(@ 20°C) (Water). Highest known is 0.62 (Water).		Color	Colorless				
Section 10. Stability and Reactivity Data								
Stability	Product is stable.	Product is stable. Corrosi		Extremely corrosive in presence of steel, of aluminum, of copper. Non-corrosive in presence of glass.				
Instability Temperature	Not available.		c :ID I					
Conditions of Instability	Reagent turns yellow when no longer effective.		Special Remarks on Corrosivity	May react violently with water especially when water is added to the product.				
Incompatibility with Various Substances	Reactive with metals,	alkalis.	Polymerization	Will not polymerize.				
Section 11. Toxicological	Information							
Route of Entry								
Toxicity to Animals		Acute toxicity of the vapor (LC50): 1562 ppm 4 hour (Rat).						
Chronic Effects on Humans	The substance is toxic to lungs, mucous membranes.							
Other Toxic Effects on Humans	Extremely hazardous in case of ingestion, of inhalation.							
Special Remarks on Toxicity to Animals Special Remarks on Chronic Effects on Humans Special Remarks on Other Toxic Effects on Humans		Very hazardous in case of skin contact (corrosive, irritant, permeator). Not available. Not available. Material is destructive to tissue of the mucous membranes and respiratory tract.						
Section 12. Ecological Information								
Ecotoxicity		Not available.						
BOD5 and COD	Not available.							
Products of Biodegradation	Possibly hazardous short term degradation products are not likely. However,							

Not available.

Toxicity of the Products of Biodegradation

Special Remarks on the Products of Biodegradation

long term degradation products may arise.

The products of degradation are more toxic.

Acid Test Page 4 of 4

Section 13. Disposal Considerations

Waste Disposal Recycle to process, if possible. Consult your local or regional authorities.

Section 14. Transport Information

DOT Classification CLASS 8: Corrosive liquid.

Identification Hydrochloric acid, 8, UN1789, II

Special Provisions

Not applicable.

for Transport

Section 15. Other Regulatory Information and Pictograms

Federal and State Regulations Pennsylvania RTK: Hydrochloric acid

Massachusetts RTK: Hydrochloric acid TSCA 8(b) inventory: Hydrochloric acid

SARA 302/304/311/312 extremely hazardous substances: Hydrochloric acid SARA 313 toxic chemical notification and release reporting: Hydrochloric acid

CERCLA: Hazardous substances.: Hydrochloric acid

California Proposition 65 Warnings

Other Regulation OSHA: Hazardous by definition of Hazard Communication Standard (29 CFR 1910.1200).

Other classifications WHMIS (Canada) CLASS D-1B: Material causing immediate and serious toxic effects (TOXIC).

CLASS D-2A: Material causing other toxic effects (VERY TOXIC).

CLASS E: Corrosive liquid.

DSCL (EEC) R20- Harmful by inhalation.

R35- Causes severe burns.

Section 16. Other Information

Part Number(s) RE2076

References Not available.

Other Special Considerations Not available.

Notice to Reader

All chemicals may pose unknown hazards and should be used with caution. This Material Safety Data Sheet (MSDS) applies only to the material as packaged. If this product is combined with other materials, deteriorates, or becomes contaminated, it may pose hazards not mentioned in this MSDS. It shall be the user's responsibility to develop proper methods of handling and personal protection based on the actual conditions of use. While this MSDS is based on technical data judged to be reliable, Haztech Systems, Inc. assumes no responsibility for the completeness or accuracy of the information contained herein.
